

Description :

White pearlized, high yield roll-fed bottle label film for single ply applications

Features and applications :

- * One side corona treated
- * Ideal for single ply roll-fed bottle label production
- * No UV sensitivity and therefore ideal for LUT sensor system
- * Bright white-pearlized side for printing
- * Excellent dimensional stability and cuttability

Available gauge(s) (µm) : 38

This film complies with the EC and FDA food contact regulations. Detailed documentation is available on your request. All the information contained in this datasheet is supplied at the best of our knowledge and must not be construed as a guarantee. Since the circumstances and processes used in the application of our product are beyond our control, our guarantee remains within the limits of the generic conditions of supply of the product itself. Business Development and Customer Solutions Department is available to supply upon request all the updated recommendations relevant to the best converting and processing techniques for the product. Also, different film thicknesses and properties are available upon request.
