

BOPET FILMS

POLIPET®
PRS

Description :

Inline silicone coated release liner Pet film

Features and applications :

- * One side inline silicone coated
- * Minimum silicone rub-off
- * Excellent slip and good dimensional stability
- * Ultra thin, highly cured, minimum smear effect

Available gauge(s) (µm) : 12,23,36

PRS needs to be stocked in a closed warehouse and preserved from the light. Polinas will not accept any responsibility for material older than 1 year from the delivery
It is recommended to use with acrylic base adhesives

This film complies with the EC and FDA food contact regulations. Detailed documentation is available on your request. All the information contained in this datasheet is supplied at the best of our knowledge and must not be construed as a guarantee. Since the circumstances and processes used in the application of our product are beyond our control, our guarantee remains within the limits of the generic conditions of supply of the product itself. Business Development and Customer Solutions Department is available to supply upon request all the updated recommendations relevant to the best converting and processing techniques for the product. Also, different film thicknesses and properties are available upon request.
